

# KITCHEN GIANT

Cleans / Degreases & Sterilises all  
Equipment, Floors, Walls and Surfaces

## Foams — Clings — Cleans

**KITCHEN GIANT** is a soft non-atomising foaming deep cleaner, degreaser and sanitizer which breaks down the highest levels of fatty soiling and does not dry out before the contamination has been dissolved. Ideal for all kitchen and food processing areas.

### Multi-Purpose for use throughout the Kitchen

This exceptionally efficient, safe cleaner is ideal for use around the entire kitchen. **KITCHEN GIANT** cuts through grime and staining on ovens, hobs and grills, paintwork, floors, walls and all other equipment. Brings glass and stainless steel equipment "up like new".

### No Misting ! No Choking Fumes!

**KITCHEN GIANT** is non-atomising and safe to use even in confined areas, unlike spray cleaners which mist into the air causing inhalation of chemicals along with the associated hazards.

### Powerful Biocidal Action

Containing a blend of highly effective bacterial agents which destroys a wide range of organisms at low dosages including: *Listeria Monocytogenes*, *Escherichia Coli*, *Salmonella Typhimurium*, *Salmonella Typhosa*, *Staphylococcus aureus*, *Streptococcus spp* and *Saccharomyces Cerevisiae*.

Under Laboratory conditions a virtual 100% kill of these organisms is achieved within a few minutes, thus ensuring the low TVC's required by the catering and food and industry. After rinsing off, the surface is left clean and sterile.

### Dilution Rates

Either use neat through foaming bottle or dilute 1:10—1:40 for soak or mopping operations. Effective in both hot or cold solutions.

### HOW TO USE

**When used through foaming bottle**— Simply foam over surface. Allow to penetrate for a few minutes, scrub if necessary and rinse with clean water.

**Mop, scrub or spray method** — Apply diluted solution onto the surface to be cleaned. Allow to penetrate for a few minutes. Rinse off with clean water.

**Soak method** — Place article to be cleaned into solution, allow to penetrate for 15—60 mins, scrub if necessary and rinse with clean water.

**Packed** In 1 litre foaming bottles and 5 litre containers.
