

# Zebra Clean

## Film Negative & Emulsion Cleaner

**Fast Drying, Anti-Static Film Cleaner. For use on All Emulsion and Base Mediums found on Film and Negative Surfaces.**

### Fast - Safe - Effective

Removes finger marks, oils, grease, pencil marks, adhesive residue, mildew, ball-point ink, smoke and soot damage. Completely safe on both black & white and colour materials, slides, negatives and prints (including cibachrome).

### Finger Prints

Stops damage caused by finger prints which contain an acid like residue. This in time will eat into the emulsion of a film or negatives causing irreparable damage.

### Multi-Use

**Hydra Zebra Clean** will not remove the coloured dyes used in re-touching films and negatives.

It has no adverse affect on dye stability and is safe to use on archive film, micro-fiche, acetates, plastics and all silver-based films and paper slide material. Safe on archive film.

### Fast Drying

Safe, solvent formulation which dries immediately without leaving any residue or swelling of the emulsion. Surfaces are left Clean, Dry and Anti-Static.

### DIRECTIONS FOR USE

Use in well ventilated area

### Film Cleaning

- 1) Place film in hand re-wind.
- 2) Apply **Hydra Zebra Clean** using lint free cloth folded over the film to create a jaw.
- 3) Put light pressure on both sides of the film.
- 4) Wind the film slowly applying the cleaner.
- 5) Re-apply more cleaner as necessary to keep the cloth and film moist.
- 6) Ensure film is dry before it gets to take-up reel.

### Hand Cleaning for all Film, Negatives, Slides and Prints

Apply **Zebra-Clean** using cotton bud or lint free cloth. Apply sparingly to the surface to be cleaned.

Gently wipe **Zebra-Clean** in one direction only over the surface to remove contamination or marks .

Leave to air dry.
