- 1. Automatic Dosing:** For use through the **Hydra ADE24/TX** anti-algae system. Our dosing system automatically doses **Algae Free/AD** into the wash water supplying the wash tank. This keeps the entire wash water system including tank, overflow, pipes and drains spotlessly clean 24/7. Eliminates hand dosing together with its related problems. For full details on the **ADE24/TX** system please see separate data sheet.
- 2. Manual Dosing:** **Algae Free/AD** can also be used without the **ADE24/TX** system to hand dose wash tanks. Add 25ml daily to each 50 litres wash water.
- 3. Static, Inspection and Ultra Sonic Tanks.** 1 litre treats up to 1,000 litres water. Added to clean water to stop slime build-up.
